

ARTESIAN SPAS™

# HEALTH BENEFITS

## RESTFUL SLEEP

Unlike the use of medications and prescription sleep aids, the circulation and warmth of each Artesian Spa encourages the body to unwind and relax on its own. This leads to a more restful sleep.

## TYPE 2 DIABETES

A recent study revealed Type 2 Diabetes sufferers experienced a significant decrease in blood sugar levels and improved sleep after spending 30 mins/day in a spa. For those who live with the daily discomfort of diabetes, an Artesian Spa can be the doorway to a more enjoyable life.

## ARTHRITIC RELIEF

An Artesian Spa is an ideal treatment for both arthritis and fibromyalgia. The heated water causes better blood flow, while the buoyancy relieves the strain of gravity on your frame.

## STRESS RELIEF

The jets in each Artesian Spa are specially placed to massage major pressure points for the ultimate in massage therapy. Let the powerful massage soothe your aching muscles and relieve your stress.
